Product characteristics

SPS – (Safety Protection System) package: patented, electronically controlled, transparent safety flap in the feed opening as additional safety element; **EASY-SWITCH** – intelligent control element indicating the operational status of the shredder with varying colour codes and back-lit symbols; **automatic reverse and power cut-off (avoids paper jams)**; automatic stop if the shred bin is full; electronic door protection via a magnetic proximity switch; **double motor protection against over-heating**; **ZERO ENERGY standby mode**: Complete, automatic disconnection from power supply after 30 minutes. Photo cell controlled automatic start and stop. With SSC – smart shred control: **a smiley on the EASY-SWITCH element indicates the used sheet capacity during shredding process to avoid paper jams**. **High-quality, paper clip proof cutting shafts from special hardened steel with lifetime guarantee** (not applicable for models with 0.8 x 12 mm micro cut or 0.8 x 5 mm super micro cut). **Quiet, powerful and energy-efficient** single phase motor. Features

SOLID STEEL CUTTING SHAFTS

Robust and durable: high-quality paper clip proof cutting shafts with lifetime guarantee under conditions of fair wear and tear (except fine cut models MC and SMC).

EASY-SWITCH

Ease of operation: intelligent multifunction switch element with integrated optical signals indicating the operational status. Additional "emergency switch" function.

PATENTED SAFETY FLAP

Extremely safe: electronically controlled safety flap in the feed opening to keep fingers, ties or other objects away from the cutting shafts.

CONVENIENT SHRED BIN

The environmentally-friendly shred bin can be removed easily and cleanly from the cabinet. The bin can be used with or without disposable shred bag.

AUTOMATIC FUNCTIONS

Tried and tested: Reliable printed circuit board controlling all automatic functions of the shredder including the energy saving mode.

SSC - SMART SHRED CONTROL

That's fun – shredding without paper jams! The smiley has a capacity control function: If it shines green, everything is ok. If the smiley flashes, the shredder has reached its capacity limit.
